When it’s not as simple as A-B-C ...

Online Tutoring: Anywhere, Anytime

Writing Help - 24/7

It’s late at night ... you’re stuck ... you need help on your writing assignment. But, it’s too late to e-mail your professor, call classmates or consult with the librarian. As your panic grows, you gulp your cafffeinated drink and wonder aloud, “Where is help when I need it?”

CTU provides its students with the writing help you need!

With SMARTHINKING, you can:

- Connect with a live tutor through drop in tutoring
- Submit your writing for any class to our writing center

A live writing tutor can help:
- Brainstorm about your approach to a specific topic, how to start your argument, or where to begin your writing assignment.
- Provide help and practice. A tutor can help you understand grammar or writing mechanics feedback you’ve received from an instructor.
- Not sure how to cite a reference? A writing tutor also can help you with any of your APA questions.

Don’t forget:
- Submit your writing assignments anytime to receive feedback. (Paper submissions are generally returned within 24 hours to your Smarthinking Inbox.)
- Ask for help when you need it. Many students are reluctant to ask questions in class, and private one-on-one tutoring allows you to receive help when you need it.

Live Writing Drop-In Tutor Hours Are Available 24/7

Follow these steps to get started:

Go to the Library page on your MyCampus portal and select Smarthinking.
If you have trouble, there may be a pop-up blocker problem.

Tutoring services are provided by CTU at no additional charge to you. It’s another way we’re helping you succeed!
